MESSAGE FROM THE CMP INCHARGE

“Beautiful things happen when you distance yourself from negativity.”

Every activity in school life plays a significant role in development of students.

Co-curricular activities are an essential part of school life and helps in enhancing learning process of students at school.

Primary education lays the foundation of the physical, intellectual and emotional growth of the children. Common Minimum Programme enables us to bring qualitative improvement and development in the teaching learning process. Audio-Visual modules and pictures facilitate effective learning among children.

Under CMP Medical Check-up, Bal Divas, Sports & games competitions, Grandparents' Day, Community Lunch, Film shows, activities are being organized. This newsletter showcases various activities taken up by Primary Students of the Vidyalaya.

I would like to express my deep gratitude to Sh. B.N. Pandey, principal who inspires us and guides us in these activities. I also congratulate all the students, staff and editorial team towards their sincere efforts.

COMMON MINIMUM PROGRAMME

The Common Minimum Programme in KV Missamari, Sonitpur, Assam is being followed keeping the norms set up by the KVS in teaching learning process in primary classes. The process of teaching and learning is activity based. It is child centered and child oriented where individual attention is given to each child. Late bloomers are given extra care and individual care is being given by the concerned teachers.

The CMP has given a sense of direction to all the primary teachers as well as the school administration. It is only after the implementation of CMP that the school environment has become more vigorous to learning. The teachers are working hard to create a child friendly atmosphere in the school. The children are encouraged in each and every field and are given more exposure to participate in co-curricular activities, cluster level CCA and Sports activities, etc. which in turn build confidence in them. Even late bloomers are given chance to take part in morning assembly programme. The film shows, power point presentations, dramatizations, role plays, etc. are making the teaching learning process very interesting and motivating for the children that they come forward with their own creative ideas. The school administration took the initiative of buying CBT and other interesting story books based on values for the primary classes.

It can be said that the implementation of CMP has brought about positive changes in the school atmosphere and the children will reap the fruits for a long time to come to become a resourceful future citizen of this nation.

In a nutshell, all the efforts are being taken by the school administration as well as the enthusiastic team of primary teachers of KV Missamari to improve and strengthen the quality of primary education in the primary.
